

# PRESS RELEASE – ICWMM 2021

**February 24 - February 25, 2021**

## ***Registration now open for our first virtual event***

Meet your colleagues, learn from experts and be on the forefront of advances in our profession.

### WHY JOIN US

The ICWMM brings together professionals from around the world to exchange ideas on current practices and emerging technologies in water management. Emphasis is on state-of-the-art computer modeling for resolving water quantity and quality problems in stormwater, wastewater, watershed and water distribution systems.

Presentations are of a very high standard and the atmosphere is informal and relaxed. And, by accepting abstracts up until the last minute, a spontaneity is achieved which gives the conference its special character.

### WHO ATTENDS

Inherently multi-disciplinary, the ICWMM is designed for any who have a direct stake in stormwater management, non-point source pollution or urban water systems.

Abstracts are currently being accepted with a submission deadline of February 1st, 2021. To submit an abstract for presentation, please email [info@chijournal.org](mailto:info@chijournal.org)

For more info and to register, visit our website <https://www.icwmm.org/>
